

Alphabetically, by breed: Disease-specific DNA tests currently available

American Bulldog: Neuronal Ceroid Lipofuscinosis (NCL); **American Cocker Spaniel:** Phosphofructokinase Deficiency (PFK), Progressive Retinal Atrophy (PRA); **Australian Cattle Dog:** Progressive Retinal Atrophy (PRA); **Australian Shepherd Dog:** Collie Eye Anomaly (CEA), Hereditary Cataracts (HC), Progressive Retinal Atrophy (PRA); **Basenji:** Pyruvate Kinase Deficiency (PK Deficiency); **Basset:** X-Linked Severe Combined Immunodeficiency (X-SCID); **Beagle:** Pyruvate Kinase Deficiency (PK Deficiency); **Bedlington Terrier:** Copper Toxicosis; **Bernese Mountain Dog:** von Willebrand's Disease Type 1 (vWD I); **Border Collie:** Canine Cyclic Neutropenia AKA Gray Collie Syndrome, Collie Eye Anomaly (CEA), Neuronal Ceroid Lipofuscinosis (NCL); **Boston Terrier:** Juvenile Hereditary Cataracts; **Briard:** Congenital Stationary Night Blindness (CSNB); **Bullmastiff:** Canine Multi-focal Retinopathy (CMR), Progressive Retinal Atrophy (PRA); **Cairn Terrier:** Globoid Cell Leukodystrophy AKA Krabbe Disease, Pyruvate Kinase Deficiency (PK Deficiency); **Chesapeake Bay Retriever:** Progressive Retinal Atrophy (PRA); **Chihuahua:** Pyruvate Kinase Deficiency (PK Deficiency); **Chinese Crested:** Progressive Retinal Atrophy (PRA); **Clumber Spaniel:** Pyruvate Dehydrogenase Phosphate 1 Deficiency (PDP1); **Cockerpoop:** Progressive Retinal Atrophy (PRA); **Cocker Spaniel:** Familial Nephropathy (FN), Progressive Retinal Atrophy (PRA); **Collie (Rough):** Canine Cyclic Neutropenia AKA Gray Collie Syndrome, Collie Eye Anomaly (CEA), Progressive Retinal Atrophy (PRA); **Collie (Smooth):** Canine Cyclic Neutropenia AKA Gray Collie Syndrome, Collie Eye Anomaly (CEA), Progressive Retinal Atrophy (PRA); **Coton De Tulear:** Canine Multi-focal Retinopathy (CMR); **Dachshund (Miniature Long-haired):** Narcolepsy (NARC), Progressive Retinal Atrophy (PRA), Pyruvate Kinase Deficiency (PK Deficiency); **Dachshund (Miniature Smooth-haired):** Narcolepsy (NARC), Progressive Retinal Atrophy (PRA), Pyruvate Kinase Deficiency (PK Deficiency); **Dachshund (Miniature Wire-haired):** Narcolepsy (NARC), Pyruvate Kinase Deficiency (PK Deficiency); **Dachshund (Standard Long-haired):** Narcolepsy (NARC), Pyruvate Kinase Deficiency (PK Deficiency); **Dachshund (Standard Smooth-haired):** Narcolepsy (NARC), Pyruvate Kinase Deficiency (PK Deficiency); **Dachshund (Standard Wire-haired):** Narcolepsy (NARC), Pyruvate Kinase Deficiency (PK Deficiency); **Dobermann Pinscher:** Narcolepsy (NARC), von Willebrand's Disease Type 1 (vWD I); **Dogue De Bordeaux:** Canine Multi-focal Retinopathy (CMR); **English Springer Spaniel:** Fucosidosis, Phosphofructokinase Deficiency (PFK), Progressive Retinal Atrophy (PRA); **Entelbacher Mountain Dog:** Progressive Retinal Atrophy (PRA); **Finnish Lapphund:** Progressive Retinal Atrophy (PRA); **French Bulldog:** Hereditary Cataracts (HC); **German Pinscher:** von Willebrand's Disease Type 1 (vWD I); **German Shepherd Dog:** Mucopolysaccharidosis type VII (MPS), Pyruvate Kinase Deficiency (PK Deficiency); **German Short-haired Pointer:** Cone Degeneration (CD); **German Wire-haired Pointer:** von Willebrand's Disease Type 3 (vWD III); **Goldendoodle:** Progressive Retinal Atrophy (PRA); **Golden Retriever:** Golden Retriever Muscular Dystrophy (GRMD), Progressive Retinal Atrophy (PRA); **Irish Red & White Setter:** Canine Leukocyte Adhesion Deficiency (CLAD), Progressive Retinal Atrophy (PRA), von Willebrand's Disease; **Irish Setter:** Canine Leukocyte Adhesion Deficiency (CLAD), Progressive Retinal Atrophy (PRA); **Italian Spinone:** Cerebellar Ataxia; **Keeshond:** Primary Hyperparathyroidism (PHPT); **Kerry Blue Terrier:** von Willebrand's Disease Type 1 (vWD I); **Kuvasz:** Progressive Retinal Atrophy (PRA); **Labradoodle:** Progressive Retinal Atrophy (PRA); **Labrador Retriever:** Hereditary Myopathy of Labrador Retrievers (HMLR) AKA Centronuclear Myopathy (CNM), Narcolepsy (NARC), Progressive Retinal Atrophy (PRA), Retinal Dysplasia (RD) AKA Oculoskeletal Dysplasia; **Lancashire Heeler:** Collie Eye Anomaly (CEA); **Manchester Terrier:** von Willebrand's Disease Type 1 (vWD I); **Mastiff:** Canine Multi-focal Retinopathy (CMR), Progressive Retinal Atrophy (PRA); **Miniature Schnauzer:** Myotonia Congenita, Progressive Retinal Atrophy (PRA); **Newfoundland:** Cystinuria; **Norwegian Elkhound:** Progressive Retinal Atrophy (PRA); **Nova Scotia Duck Tolling Retriever:** Collie Eye Anomaly (CEA), Progressive Retinal Atrophy (PRA); **Poodle (Miniature):** Progressive Retinal Atrophy (PRA), von Willebrand's Disease Type 1 (vWD I); **Poodle (Toy):** Progressive Retinal Atrophy (PRA), von Willebrand's Disease Type 1 (vWD I); **Poodle (Standard):** von Willebrand's Disease Type 1 (vWD I); **Portugese Water Dog:** Progressive Retinal Atrophy (PRA); **Pyrenean Mountain Dog:** Canine Multi-focal Retinopathy (CMR); **Samoyed:** Progressive Retinal Atrophy (PRA), Retinal Dysplasia (RD) AKA Oculoskeletal Dysplasia; **Scottish Terrier:** von Willebrand's Disease Type 3 (vWD III); **Shetland Sheepdog:** Collie Eye Anomaly (CEA), von Willebrand's Disease Type 3 (vWD III); **Siberian Husky:** Gangliosidosis (GM1), Progressive Retinal Atrophy (PRA); **Sloughi:** Progressive Retinal Atrophy (PRA); **Spanish Water Dog:** Progressive Retinal Atrophy (PRA); **Staffordshire Bull Terrier:** Hereditary Cataracts (HC), L-2-Hydroxyglutaric Aciduria (L-2-HGA); **Sussex Spaniel:** Pyruvate Dehydrogenase Phosphate 1 Deficiency (PDP1); **Swedish Lapphund:** Progressive Retinal Atrophy (PRA); **Welsh Corgi (Cardigan):** Progressive Retinal Atrophy (PRA), X-Linked Severe Combined Immunodeficiency (X-SCID); **Welsh Corgi (Pembroke):** von Willebrand's Disease Type 1 (vWD I), X-Linked Severe Combined Immunodeficiency (X-SCID); **West Highland White Terrier:** Globoid Cell Leukodystrophy AKA Krabbe Disease, Pyruvate Kinase Deficiency (PK Deficiency); **Yorkshire Terrier:** Progressive Retinal Atrophy (PRA).
